

Sanex Packaging connection Pvt Ltd unveils the Year's biggest Packaging Innovation report. Interpack 2011 world's largest packaging show was held in May 2011 and PackagingConnections' team attended the event held in Düsseldorf , Germany.

The Delhi based firm's visiting team visited the 17 halls of the biggest extravaganza of the Packaging Industry. Technology, Machine, Material innovations were exhibited from across the globe. CEO & Founder Mr Sandeep Goyal said "This was the second experience of PackagingConnections' team at Interpack. The visit provided an international exposure to the team however widening the team's knowledge base and networking was the main objective"

After the successful visit, the team has now put together the top innovations at Interpack 2011 into a report. The Innovations are also part of the report, with details about the Innovation, innovator/Company details and visual representation of the same. The Report offers insight into 100 + innovations of packaging, showcased at Interpack 2011 including the highlights of the show;

- Tubes with Braille effects
- Two Component tube
- Tap to pour beer
- Monodose Sachet
- Pull tab opening ( E-Z Zip)
- Lift 'n' Peel ( Easy Opening Tab)
- Sports Cap for aseptic Filling
- Label solution for safe use of auto injectors
- Microsteamer laminate for Microwave cooking
- Fill-cap
- Octal- Less Carbon foot print

The Interpak 2011 Innovation report is now available on [www.packagingconnections.com](http://www.packagingconnections.com) and the team has put a lot of research work on these innovations including the discussions during the Interpack and after it with the specific innovator/ company.

Mr Sandeep Goyal further said "This report would be of great value to the packaging decision makers who could not visit Interpack 2011 and other professionals from the industry"
