EXHIBITION:

The three-day-long Atyrau Oil & Gas Exhibition brought together **100 companies** from **13 countries**, such as: Azerbaijan, China, Finland, Germany, Iran, Kazakhstan, Netherlands, Russia, Switzerland, Turkey, United Arab Emirates, United Kingdom, and United States. Atyrau Oil & Gas 2009 included such major concerns and companies as: EmbaMunaiGas, Agip KCO, TengizChevrOil, ACECO, Komek Machinery, BTS, Denholm Zholdas, Khazar Transfo, Internormen Technology, Borkit International GmbH, IOTA Group, Pile Pro Corporation and Wärtsilä Corporation among many others (the full list of exhibitors is on page 3).

The increased number of international companies at Atyrau 2009 is worth special mentioning, they made 35% of all exhibitors, as well as the constantly growing interest on behalf of Russian companies (27% of all exhibitors).

New items were presented at the exhibition and included a Kazakhstan presentation of Komatsu-developed Komtrax satellite monitoring system for construction machinery organised by KOMEK MACHINERY Kazakhstan LLP. All capacities of the system were presented and demonstrated at the exhibition in a real time mode. New products were also demonstrated in a workshop format by such companies as Antares Group LTD, Alex Company, and EnergoTrade-2007.

For the second year running, the Embassy of the Kingdom of the Netherlands organised presentation of a group of industrial enterprises within the framework of the exhibition.

In the Infrastructure Section, companies from Russia, Turkey and Kazakhstan presented electrical equipment, mechanical engineering, building materials and fasteners, waterproofing, roofing and facade materials, gas concrete blocks, wood boards, and much more.

The total exposition area of Atyrau Oil & Gas 2009 made up 1,500 m². The event was attended by 3,460 professional visitors.

For the convenience of professionals, the exposition was segmented by the following sections most relevant for the industry:

- Oil & Gas Production and Processing
- Oil & Gas Equipment
- Oil & Gas Transportation
- Engineering & Consulting
- Geophysical Services
- Environment Protection
- Logistic Support for Oil & Gas Fields
- Ecological Security
- Individual and Industry Protection Facilities
