DON'T JUST TAKE OUR WORD FOR IT!

Here's what some of our 2010 **VISITORS** have to say:

"We had a handful of companies exhibiting at the show who we buy from and supply, but even though we deal with them week in and week out, very rarely do we get the opportunity to meet them face-to-face. With modern technology as it is, such as emails and so forth, opportunities to meet clients and prospective clients face-to-face is becoming very rare. However easyFairs has changed all that. Anyone who's anyone in the world of packaging was there. There was a huge amount of innovation at the show, along with a fantastic number of quality exhibitors, and learnShops™. easyFairs packaging events are now a permanent fixture in my diary."

Will Garrity, Sales Director, ESP

"I found the easyFairs® PACKAGING INNOVATION 2010 exhibition at the NEC very interesting and informative and hope to persuade our company to have a stand at next year's show, I met with several contacts who were exhibiting at this year's show and they all seemed very positive with the standard of sales enquiries and the contacts."

Richard Eley, Sales Executive, Bettix Ltd

Here's what some of our 2010 **EXHIBITORS** have to say:

"Over the last six years the quality of the visitors to the easyfairs® PACKAGING INNOVATIONS Show has improved year on year and 2010 was no exception. Following our win in the Lions Liar for BB2 our patented re-usable wine box we had an incredible response from a wide variety of industries, some of which are very promising. It still amazes us that some seven years after the introduction of Retail Ready Packaging by the UK retailers their suppliers are still looking for the ideal solutions. Visitors to our stand could not believe some of the simple but ingenious designs we have developed that could be useful for their business. We have much work ahead."

Rowan Tinn, Innovations Development Manager, Clifford Packaging

"We generated over 200 quote requests over the two days, a similar number of brochure requirements and our newly revamped web site has been hot since the show. We found it a very positive experience for our first time at this show and we have booked a larger stand for next year."

Jonathan Powell, Sales Director, Spectra

"The easyFairs packaging show continues to delight us with the number and the quality of visitors that it is able to attract. Whilst the show is only two days long, they are two exceptionally hectic days. This year we have completed four books of visitor leads: way beyond our expectations. Introductions that we have made at previous years events have yielded many hundreds of thousands of pounds worth of business over the life of the association, and we firmly believe that this will be the case for the 2011 event as well."

Paul Tye, Marketing Manager at Benson Group
